

## **NSSLGlobal Celebrates 55 Years at the Leading-Edge of Maritime and Defence Technology**

*Its ongoing commitment to R&D and innovation has cemented NSSLGlobal's status as a full-service engineering powerhouse*

NSSLGlobal, a leading independent full-service project engineering, satcom and systems integrator, is this year celebrating its 55<sup>th</sup> anniversary, marking more than half a century of developing innovative technology solutions for the government and maritime mobility markets.

Established in 1969, NSSLGlobal has a proud heritage of providing best-in-class satellite solutions. NSSLGlobal's ongoing commitment to innovation and helping customers solve their communication challenges wherever they are in the world; at sea, on land or in the air, has earned the company prestigious clients, including the UK Ministry of Defence, the German Armed Forces and other NATO organisations to some of the largest commercial maritime companies such as Mitsui O.S.K. Lines (MOL) and Teekay.

NSSLGlobal has built a strong reputation as a technology agnostic world-class solutions house, having partnered with the world's largest MSS and VSAT satellite operators and manufacturers.

The company remains committed to delivering practical, cost-effective, and forward-thinking solutions that meet the ongoing needs of its customers today and into the future. NSSLGlobal's R&D efforts are at the cutting edge, developing innovative technology and equipment to cater to the evolving demands of customers in an increasingly digitalised world.

Meeting the data-hungry needs of vessels and defence organisations, NSSLGlobal also supports and sponsors the endeavours of individuals such as the successful summit of Mt Everest by double above-the-knee amputee, Hari Budha Magar (former Gurkha) to overcome personal challenges, while raising awareness of societal issues around disability and the environment.

Headquartered in the UK, NSSLGlobal has more than 250 staff with offices globally in Germany, Sweden, Denmark, Poland, the Netherlands, Norway, Singapore, and the USA.

Sally-anne Ray, CEO, NSSLGlobal, said: "At NSSLGlobal we never stand still. Over the last 55 years, we have consistently proven ourselves to be agile and innovative, which has enabled us to meet the changing needs of our customers. We're immensely proud of what we have achieved during this time and everyone who has been on this journey with us has contributed to our status as an engineering powerhouse, with a laser focus on customer service. We are excited about the future and remain committed to innovating and providing our customers with the leading-edge solutions and services they have come to expect. We can't wait to see what the next 55 years hold."

**Notes to Editors:**

**NSSLGlobal Group** is globally recognised as a leading, independent full-service project engineering, satcom and systems integrator. With 55 years of experience in the government and maritime mobility markets, NSSLGlobal provides best-in-class SMART maritime technology services, satellite communications solutions including GEO and LEO networks, working in partnership with some of the largest MSS and VSAT satellite operators. With innovation and customer service at the core of its DNA, NSSLGlobal's growing portfolio of in house developed technology and partnerships with major enterprise industry suppliers is enabling its customers to digitalise their operations with SMART future-proof solutions.

NSSLGlobal's Smart Maintenance Plans provide scalable tailored maintenance solution with a range of technical services such as remote and onboard technical support, annual surveys, access to inventory, replacement of obsolete systems, regulatory guidance and data available through INSIGHT our management portal to enable customers to budget more effectively.

Its technical and engineering Research and Development division is based in Norway and is focussed on developing and delivering market competitive satellite-based solutions for IPTV products and VSAT technology including Hubs and VSAT modems for mobility and fixed applications globally.

Headquartered in the United Kingdom, the company employs 250+ staff worldwide and has offices across Germany, Denmark, Norway, the Netherlands, Sweden, Poland, Singapore, Japan, and the United States.

NSSLGlobal has strong values and is committed to working ethically, with integrity and always lawfully wherever it operates and with everyone it does business with. It is certified to Information Security Management Systems 27001:2013, Quality Management 9001:2015, Environmental Management 14001:2015, Health and Safety management 45001:2018 and 44001:2017 Collaborative Business Relationships.
