

NSSLGlobal Group announces acquisition of MetOcean Telematics (UK) Ltd

EMBARGOED: Thursday 24th September 2026, REDHILL, UK – [NSSLGlobal](#), the leading independent satellite communication and system integrator today announced the acquisition of MetOcean Telematics (UK) Ltd.

MetOcean Telematics (UK) Ltd provides global security, surveillance and IOT asset tracking solutions for international law enforcement as well as for enterprise customers and high-profile individuals. In addition, the company is specialised in covert vehicle fitting, including surveillance and communication equipment. These proven and trusted products are designed for locating and tracking key assets via satellite, cellular and radio, especially in remote areas and harsh environments.

The acquisition provides a strategic progression in developing NSSLGlobal's product offerings to current and future customers, whilst expanding reach into relevant adjacent markets with a powerful combination of communications and security capabilities.

Sally-anne Ray, Group CEO, NSSLGlobal said, "We are pleased to welcome MetOcean Telematics (UK) Ltd into the NSSLGlobal family which will be rebranded as NSSLGlobal Technologies Ltd. We are really impressed with the team's expertise, and drive in providing innovative solutions into the law enforcement market alongside their absolute commitment to their customers which aligns to NSSLGlobal's customer first ethos.

NSSLGlobal already deliver critical communication services to blue light, border force, security and civil disaster response organisations. This acquisition provides us with the ability to strengthen our offering into this sector with an exciting portfolio of complementary products and services for our customers as well as offering the full suite of satellite communication alongside a global support capability into MetOcean Telematics (UK) Ltd existing customer base."

Stuart Doe, Managing Director, MetOcean Telematics (UK) Ltd, adds: "NSSLGlobal and MetOcean Telematics (UK) Ltd have a common go-to-market philosophy based around bringing value to customers through differentiation and excellent customer service. I'm confident that both our customers and our employees will benefit from being part of the NSSLGlobal Group going forward."

NSSLGlobal Profile

NSSLGlobal Group is a leading independent provider of project engineering, satellite communications, IT management and systems integration. With nearly six decades of experience in government and maritime mobility, NSSLGlobal delivers best-in-class maritime technology and satellite solutions primarily across Geostationary and Low Earth Orbit networks, partnering with major satellite operators and wide supply chain of manufacturers.

NSSLGlobal provides assured multi-band and multi-constellation satellite solutions for commercial maritime and enterprise customers and for defence, government, responder and humanitarian organisations operating at sea, on land, and in the air. The company supports patrol vessels to oil tankers, coastguard vessels to aircraft carriers - including safety, operational, IT and welfare communications; deployed land forces ranging from embassy staff to recce teams to field headquarters, and specialist aircraft. The group's Norway-based R&D division develops market-competitive IPTV and VSAT technology, including hubs and modems for mobility and fixed applications.

Headquartered in the UK, NSSLGlobal employs 250+ staff across Germany, Denmark, Norway, the Netherlands, Sweden, Poland, Singapore and the USA. The company operates with integrity and strong ethical values and holds ISO certifications in ISO 27001, 9001, 14001, 45001 and 20000-1.
